# MARKET AND STRATEGY

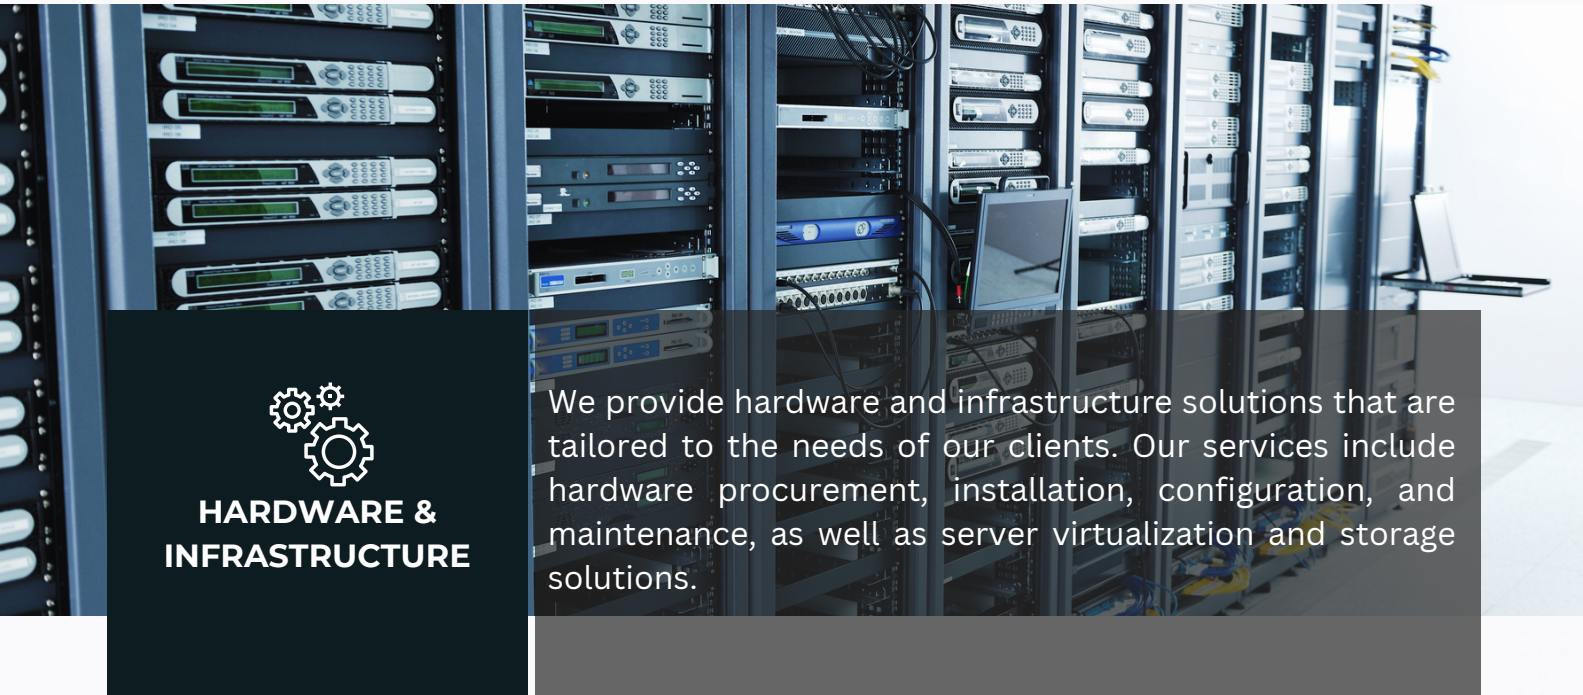

GNC Technology Services Limited's market strategy is designed to effectively reach and engage our target market, which includes Government organizations and businesses in the Financial, Health, Educational, Manufacturing, Hospitality and Oil & Gas sectors in Nigeria that require specific ICT solutions to address their organizational challenges. Our strategy includes the following key elements:

# OUR SERVICES

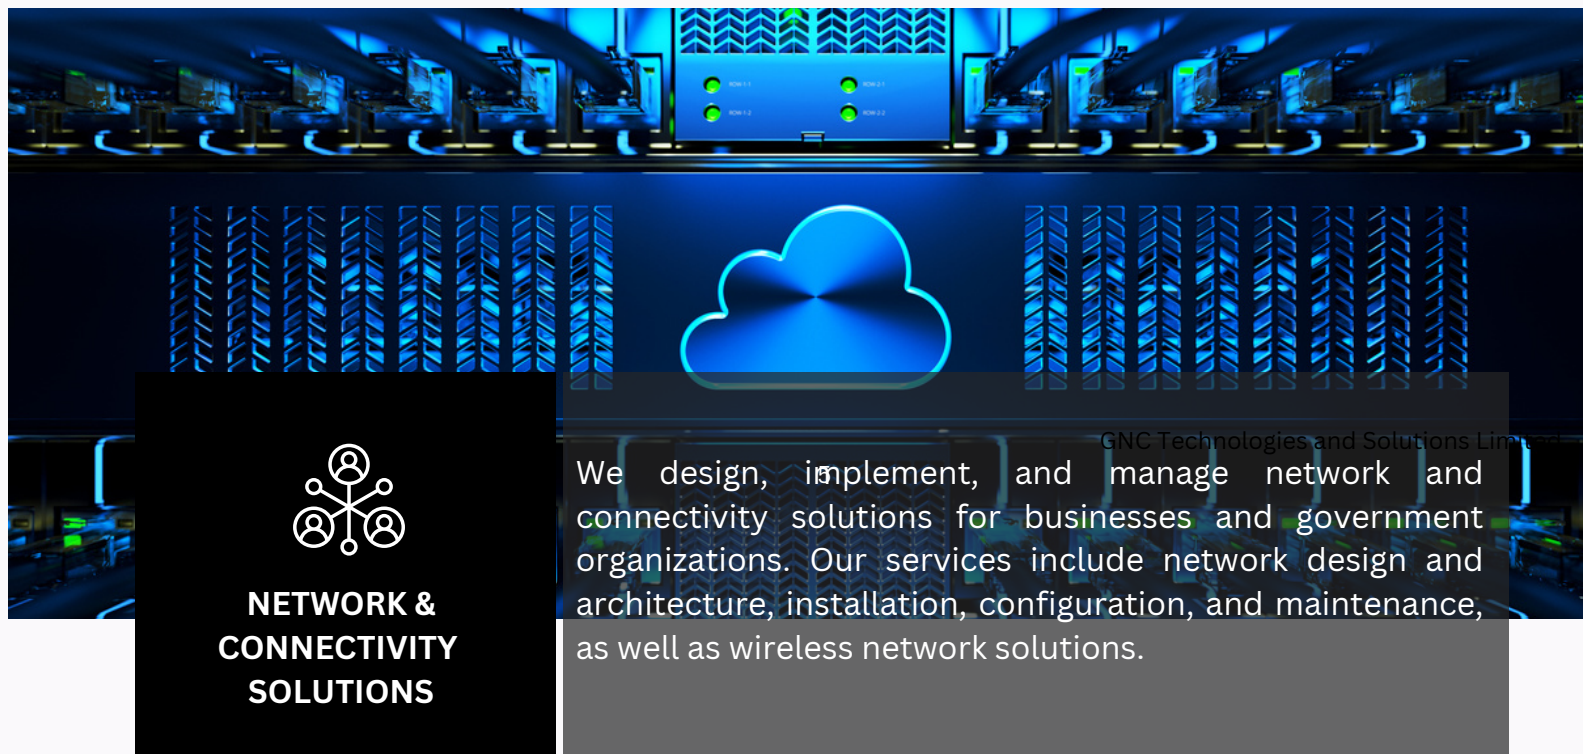

---

At GNC Technology Services Limited, we are committed to offering a comprehensive range of ICT solutions and services that meet the diverse needs of our clients in Nigeria. Our services include:

  
**HARDWARE & INFRASTRUCTURE**

We provide hardware and infrastructure solutions that are tailored to the needs of our clients. Our services include hardware procurement, installation, configuration, and maintenance, as well as server virtualization and storage solutions.

  
**NETWORK & CONNECTIVITY SOLUTIONS**

We design, implement, and manage network and connectivity solutions for businesses and government organizations. Our services include network design and architecture, installation, configuration, and maintenance, as well as wireless network solutions.

# OUR SERVICES

---

## SMART BUILDINGS SOLUTIONS

We provide smart building solutions that enable businesses and government organizations to optimize energy consumption, reduce costs, and enhance occupant comfort. Our services include building automation systems, energy management solutions and more.

## BESPOKE & HOME-GROWN SOLUTIONS

We develop bespoke and home-grown solutions that are tailored to the unique needs of our clients. Our services include application development, web development, and mobile app development.

# OUR SERVICES

---

## SOFTWARE & APPLICATION SOLUTIONS

We develop and implement software and application solutions that are designed to improve the efficiency and productivity of our clients' businesses. Our services include application development, web development, and mobile app development.

## MOBILE DEVICE MANAGEMENT SOLUTION

We provide mobile device management solutions that enable businesses and government organizations to manage and secure their mobile devices. Our services include mobile device management software, security assessments, and more.

# OUR SERVICES

## DIGITAL LENDING SOLUTION

We provide digital lending solutions that enable financial institutions to streamline their lending processes and improve their overall efficiency. Our services include loan origination software, loan management software, and more.

## WIRELESS INTRUSION PREVENTION SYSTEM

We offer wireless intrusion prevention system solutions that help businesses and government organizations protect their wireless networks from security threats. Our services include security assessments, intrusion detection and prevention, and more.

We ensure that we provide our customers with the highest level of service and support of IT hardware infrastructure. We have partnered with the leading OEM and technology provider across the globe to ensure that the products we sell are backed by a comprehensive warranty. Hence, with its focus on customer service, reliability and expertise, the company has established itself as a trusted and respected provider of ICT solutions in the industry
